

Prior Learning Credit in Lieu of Internship Completion

You have requested Prior Learning Credit for SCS470 (Internship) based on your professional workplace experience. Please reflect on your previous work experiences, volunteer activities, or significant projects that you have undertaken *as they relate to your chosen Tiffin University program of study*. Describe in detail, using specific examples, of how you have met your program learning outcomes through your experiences. Discuss how your skills, knowledge, and competencies are comparable to what would be gained through a traditional internship in your field of study. Before composing your essay, please review the [Learning Outcomes](#) for your program of study.

Your essay should be:

- Well-organized, clearly written, and provide concrete examples.
- Approximately 200-300 words in length.

The assessment of your essay will focus on the depth of reflection, the relevance of your experiences to the internship objectives, and the clarity with which you articulate your learning and professional development.

All documents should be submitted to cpl@tiffin.edu
